2510101	Wall Mount Bracket (16oz.)	1 each
2510122	Drip Tray	1 each

How much hand sanitizer does your facility need?

Facts & Statistics:

- In an 8 hour period an employee uses hand sanitizer 8 times.
- We consider the perfect employee to completely wet their hands during use.
- In 1 oz. of hand sanitizer you can get 15 uses.

Looking at 8 hour work days only (260 days):

Amount of People/ Facility Size	Ounces of Hand Sanitizer	# of 8 oz. Hand Sanitizer Bottles	# of 16 oz. Hand Sanitizer Bottles
1	138	17	9
250	34,500	4,313	2,156
500	69,000	8,625	4,313

*[Prudential](#) recommends sanitizing your hands once per hour at work.

According to [Purell](#) there are 29-30 uses in a 2 fl. oz bottle, if the sanitizer is used properly and hands are wet thoroughly. This is about 15 uses per ounce of hand sanitizer.

With this information we can gather that with 260 work days in a year, assuming 8 hour days, and using hand sanitizer every hour, **an employee would use hand sanitizer 2080 times** which is equivalent to **138 oz. of hand sanitizer.**
