

DON'T
do business
WITHOUT IT™

ACCOUNTS PAYABLE AUTOMATION

BUILT TO SAVE

They say time is money. And finding ways to save on both can be a tremendous win for your business. AP Automation¹ solutions in partnership with American Express work within your existing accounting systems or ERP and supports internal processes like invoice approval. Plus, your consolidated system will enable you to achieve working cash flow optimization.

KEEP IT STREAMLINED.

Control when.

AP Automation allows for greater efficiencies, so you can:

Speed up your AP processes by removing checks.

Choose what invoice you want to pay and American Express will send the payment automatically.

Digitize payments to increase productivity.

Control how.

With one convenient suite of solutions, you can:

Leverage the right payment method for your business, from push payments to supply chain financing.

Integrate it seamlessly into your current accounting system.

Earn financial incentives when you pay suppliers with your Card.²

Talk to your sales representative or visit <https://www.americanexpress.com/supplierpayments> today.

¹Users may be required to enroll their eligible American Express Business, Corporate or Corporate Purchasing Card for virtual payments on the American Express B2B Payments Card Enrollment portal. Users must sign up with one of our participating financial software providers and are subject to their terms. Fees may apply.

²Not all Cards are eligible to get rewards. Terms and limitations vary by Card type.
