 - Middle – Workhorse filtration layer
 - Inner – Comfort layer
- No Latex, No Adhesives
- 98% Bacterial Filtration Efficiency (BFE)
- Earloops that don't fail
- Nose wire – Reduced fogging, safer
- Cases of 400 and 2,000 masks

Why ours is better than imported?

QUALITY

AMERISHIELD
Premium-PPE

- 1. EARLOOPS - #1 Complaint of imports**
 - 10-20% failure rate on imports – Amerishield <0.25%
 - Superior comfort earloops
- 2. SAFETY - 98% Filtration Efficiency**
 - 95% standard for imports
 - Many CN manufacturers switch to substandard, not informing buyers
- 3. US MATERIALS – Thicker, higher quality**
- 4. COMFORT – Softer inner layer and earloops**
- 5. Breathability – Less fog on glasses, more breathable**

Unique Value

AMERISHIELD
Premium-PPE

- Security-of-Supply / Business Continuity
 - Risk of imports, US-CN relations, tariffs, customs
- Drop ship to any distro center or direct to store
- Trustworthy, reliable supplier
- Open door policy – Come visit the factory
- Experience management team
- Terms available
